Balloon Envelope Banners

Banners constructed for attachment to balloons shall be made of material similar to that used in the constructions of hot air balloons. These materials should be in the range of 1.1- to 2.3- oz. per yard in weight. All materials used must have a flame retardant finish. Please contact your pilot for the preferred method of attachment to the balloon envelope (Velcro, grommets, pins, etc.).

Family Sponsors (\$899 and above) are entitled to fly one or two 2 x 3 ft. basket banner with a flame retardant finish. Grommet holes and ropes are the preferred methods for attachment to the balloon basket.

Corporate Sponsors (\$1,700 and above) are entitled to fly one 15 x 21 ft. banner, on the envelope of the balloon. Please contact your pilot for the preferred method of attachment to the balloon envelope (Velcro, grommets, pins, etc.). If you do not have a pilot assigned yet, one will be assigned to you in August.

Silver Sponsors (\$5,000 & above) are entitled to fly a 15 x 21 ft. banner with a flame retardant finish. Please contact your pilot for the preferred method of attachment to the balloon envelope (Velcro, grommets, pins, etc.). If you do not have a pilot assigned yet, one will be assigned to you in August. Other banners to be considered by silver sponsors are those hung at the venue.

Major Sponsors (\$10,000 & above) are entitled to fly a 15 x 21 ft. banner with a flame retardant finish. Other banners to be considered by major sponsors are those hung at the venue. (Eligibility for Cabana use is determined by contract. Banner size for Cabanas to be determined by specific needs.)

Thanks to our sponsors, The Great Reno Balloon Race is free to our community and its visitors.
